

VIMOTO VIDEO

Assignment #6

Much Music Needs YOU! You are now the director of your own video. Your objective for this assignment is to make a 30 second video about your co-op placement that you can show to the class. Please go the following web site: <http://animoto.com/>

Step #1: Click on the “**Learn more in 60 seconds**” and watch the clip.

Step #2: Look at the Example videos by clicking on “**view videos**”.

Step # 3: After viewing different samples, click on the “**Sign up**” (top right of page).

Step # 4: Under the “Basic” package, click on “**Try it now**” and then give your information (details) and then click “sign up”.

Step # 5: Click “**Create One**” and get started. Preview the different “**Styles**”. Pick one that will suit your placement and complement your co-op photos.

Step #6: Choose a “Style” (some styles can only be used if you have the paid membership, but all of the top row styles are available). Click the “**or make a 30-second video for free**”.

Step #7: Upload your pictures from the Co-op folder. Be sure to upload between 5 and 6 pictures and include text in your video (2 or 3 spots).

Step #8: Arrange and/or rearrange your videos so they flow with your text and your style background. When picking your music from their library, be sure to find a song that “works” for your overall video.

Step #9: When you have completed your video, please “**share video**” with me so that I know you have completed this assignment and you can be given a mark. My email address is wendy.ronberg@ocdsb.ca
